

7-29-2019

Dear ECARS Scholarship Committee Members and Donors,

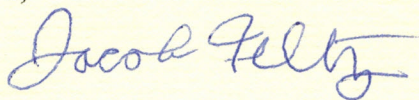

I would like to express my sincere gratitude to you for making the East Coast Amateur Radio Service Scholarship possible. I was thrilled to learn of my selection for this honor and I am deeply appreciative of your support.

My involvement in amateur radio continues to have a large impact in my life. It directly led to my chosen career path of electrical engineering. I recently registered for classes at the University of Wisconsin Platteville. After orientation, I met one of my professors who gave me a more detailed tour of the engineering facilities, including the campus amateur radio station.

The financial assistance you provided will be of great help to me in paying my educational expenses. It will allow me to concentrate on my studies while still balancing my time to be involved in amateur radio and my community.

Thank you again for your generosity and support. I promise you I will work hard, and eventually give something back to others both as an engineer and mentor to future students or hams like myself.

73,

Jacob Feltz, K9TVG
